

### DECLARATION FORM FOR MULTI-UNIT RESIDENTIAL PREMISES

Pursuant to the Regulation filed under s. 79.4 (1) (a) of the *Ontario Energy Board Act, 1998*, where the account of a low-volume consumer (has an annual energy consumption of under 250,000 kWh) relates to:

- a property as defined in the *Condominium Act, 1998*,
- a residential complex as defined in the *Tenant Protection Act, 1997*, or
- a property that is owned or leased by a co-operative as defined in the *Co-operative Corporation Act*,

the conservation threshold for that consumer is determined based on the number of units within the property or complex. In order to determine the appropriate conservation threshold, consumers must provide a signed declaration attesting to the number of units to which an account relates.

**If there is more than one residential unit associated with your account and you wish to have this taken into account when calculating your bill, please fill out this form and return it to this office.** Your account will be adjusted upon receipt of this signed and completed Declaration Form.

**Please note:** Any adjustment to the number of units will be made only on bills calculated subsequent to the receipt of the completed form, not retroactively. Any delay in processing as a result of missing or inaccurate information on the form will NOT result in adjustments to previous billings.

If you have multiple accounts with more than one residential unit, list each account separately. Do not include units that are metered or billed separately from the account referenced.

You must advise us in writing if there is a change in the number of units within the property or complex.
