

CANADIAN NIAGARA POWER INC.

Planned Power Outage – March 26, 2021 – 2:30

Please be advised that a lightning strike at 3:00 am this morning has caused damage to a vital piece of CNP equipment located on the main line feeding all of our Fort Erie customers. As a result, we will need to take a two hour town wide outage commencing at 2:30 pm today. CNP crews and contractors have begun to assemble and gather equipment etc. in order to make the repair.

We understand this power outage is an inconvenience to our customers; our plan is to make the repair today in a controlled and safe environment in order to avoid the possibility of larger unplanned outage in the future. We will endeavor to provide updates via Twitter & Facebook throughout the outage.

Our 24 /7 Emergency Telephone Line will remain available during the outage at 1- 844-501-WIRE (9473).

Thank you for your patience and understanding.
