Dear Ms. Walli:

**RE: CANADIAN NIAGARA POWER INC., PORT COLBORNE; EB-2011-0157
2012 IRM3 ELECTRICITY DISTRIBUTION RATE APPLICATION**

Please find accompanying this letter, two copies of the 2012 IRM3 Electricity Distribution Rate Application for Canadian Niagara Power Inc.; Port Colborne. Electronic copies of the Application have been submitted via the Board's Regulatory Electronic Submission System.

Yours truly,

Original Signed By

Douglas R. Bradbury
Director, Regulatory Affairs

Enclosures

ONTARIO ENERGY BOARD

IN THE MATTER OF the *Ontario Energy Board Act*,
1998, C. S.O. 1998, c.15 (Sched. B);

AND IN THE MATTER OF an Application by Canadian
Niagara Power Inc. for an Order or Orders pursuant to
Section 78 of the *Ontario Energy Board Act, 1998*
approving or fixing just and reasonable rates and other
service charges for the distribution of electricity.

Application

1. The applicant is Canadian Niagara Power Inc. (“CNPI” or the “Applicant”), a wholly-owned subsidiary of FortisOntario Inc. (“FortisOntario”). The Applicant, an Ontario corporation with its head office in Fort Erie, Ontario carries on the business, among other things, of owning and operating electricity distribution facilities within Ontario. The Applicant carries on its distribution business in the following three service territories: Fort Erie, Port Colborne and Gananoque. This Application is for CNPI’s service territory located in Port Colborne.
2. Effective May 1, 2011 in the matter of EB-2010-0069, the Board approved electricity distribution rates for CNPI’s electricity distribution customers in its Port Colborne service territory.
3. CNPI hereby applies to the Ontario Energy Board (the “Board” or the “OEB”), pursuant to section 78 of the *Ontario Energy Board Act, 1998* as amended (the “OEB Act”) for an Order or Orders approving its proposed electricity distribution rates and other charges, effective May 1, 2012.

4. The Ontario Energy Board issued file number EB-2011-0157 to CNPI – Port Colborne for the 2012 3rd Generation IRM (“2012 IRM3”) adjustment. To achieve a revenue adjustment, CNPI is seeking approval for electricity distribution rates using the 2012 IRM3 Rate Generator for Electricity Distributors.

5. This application for 3rd Generation IRM Electricity Distribution Rates effective May 1, 2012 is comprised of the following:
 - The Manager’s Summary;
 - A completed 2012 IRM3 Rate Generator Model for the Port Colborne service territory;
 - A Completed 2012 RTSR Adjustment Workform for Electricity Distributors for the Port Colborne service territory, and;
 - A Completed 2012 IRM3 Shared Tax Savings Workform for Electricity Distributors the Port Colborne service territory.

6. The persons affected by this Application are the ratepayers of CNPI’s Port Colborne service territory. It is impractical to set out their names and addresses because they are too numerous.

7. The Notice of Application related to Port Colborne customers will be published in the Port Colborne Leader, a local newspaper with a circulation of 10,800. The Port Colborne Leader is a free publication however it has the greatest readership in Port Colborne. CNPI submits that the Port Colborne Leader will reach more of its customers in Port Colborne than any other available print media.

All of Which is Respectfully Submitted

CNPI's contact information for this Application is as follows:

Email Address: scott.hawkes@cnpower.com

DATED at Fort Erie, Ontario this 10th day of November, 2011.

CANADIAN NIAGARA POWER INC.

By its counsel,

R. Scott Hawkes

MANAGER'S SUMMARY

PREAMBLE

In the matter of EB-2008-0224, CNPI – Port Colborne's last cost of service rate application, the Board approved electricity distribution rates for CNPI's electricity distribution customers in its Port Colborne service territory, effective May 1, 2009. Throughout the IRM period, CNPI – Port Colborne has complied with Board direction arising from that Decision.

CNPI – Port Colborne has complied with Chapter 3 of the Board's Filing Requirements for Transmission and Distribution Applications, dated June 22, 2011, in preparing this Application. The Board has assigned a unique case number for CNPI – Port Colborne for its 2012 IRM3 Application; EB-2011-0157.

ELEMENTS OF THE APPLICATION

PRICE CAP ADJUSTMENT

CNPI – Port Colborne has submitted a price cap adjustment of 0.18%. This submission is based on the current default metrics in the 2012 IRM3 Rate Generator; a price escalator of 1.3%, a productivity factor of 0.72%, and a proxy stretch factor of 0.4%. CNPI – Port Colborne acknowledges that the Board may update its 2012 IRM3 Rate Generator with an updated price escalator and adjusted stretch factor.

Print copies of the 2012 IRM3 Rate Generator Model is provided in Schedule A.

INCREMENTAL CAPITAL MODULE

CNPI – Port Colborne is not applying for recovery of incremental capital investment.

Z-FACTOR CLAIM

CNPI – Port Colborne is not applying for recovery of a Z-factor amount.

TAX CHANGE RATE RIDER

The Board has determined that the impact of currently known legislated tax changes will be reflected in a 2012 IRM3 adjustment mechanism and that the savings from these adjustments will be shared on a 50/50 basis between the distributor and its customers.

CNPI – Port Colborne has used the 2012 IRM3 Shared Tax Savings Workform for Electricity Distributors to determine the volumetric tax change rate rider by class and these rate riders have been entered into the 2012 IRM3 Rate Generator. A print copy of the Shared Tax Savings Workform is provided in Schedule B.

CNPI is a corporation controlled by a public corporation and as such is subject to federal income tax rules. CNPI files a single income tax return which is allocated to its operating service territories. In the Decision in the matter of EB-2008-0223, the Board stated, *“CNPI is subject to taxes as one corporate entity. It documented the allocation of taxes in a top-down method, allocating between transmission and distribution and then, within distribution, between the three service areas.”*¹ In its findings, the Board stated, *“The Board notes that there is no dispute as to the method and inputs in calculating the final income tax amounts to be reflected in rates. CNPI shall include the appropriate details in the draft rate order.”*²

DISPOSITION OF ACCOUNT 1562 DEFERRED PAYMENTS IN LIEU OF TAXES

CNPI – Port Colborne is not proposing disposition of Account 1562, Deferred Payments in Lieu of Taxes in this Application. CNPI will address this matter in its next Cost of Service proceeding.

RATE RIDER FOR DEFERRAL AND VARIANCE ACCOUNT DISPOSITION

CNPI – Port Colborne has used Tab 9. Cont. Sched. Def_Var of the 2012 IRM3 Rate Generator Model to provided data related to the continuity of the Group 1 Deferral and Variance Accounts and the Special Purpose Charge Assessment Variance Account.

¹ EB-2008-0222, EB-2008-0223, Board Decision, July 15, 2009, page 16

² EB-2008-0222, EB-2008-0223, Board Decision, July 15, 2009, page 16

The Threshold Test resulted in a total claim of \$0.0011 per kWh and therefore Deferral/Variance Account Rate Riders and Global Adjustment Rate Riders have been determined in the respective 2012 IRM3 Rate Generator Models.

In the fourth quarter of 2011, CNPI – Port Colborne submitted Cost of Power and Global Adjustment true-ups to the IESO related to 2010. These true ups are provided in the 2012 IRM3 Rate Generator Model on Tab 9. Cont. Sched. Def_Var under the heading, “Other Adjustments during Q4 2010”.

Tab 9. Cont. Sched. Def_Var also yields calculated variances between CNPI – Port Colborne’s Regulatory Reporting and Record Keeping (“RRR”) submissions for 2010 and the continuity schedules provided in the models. These variances are the result of by the Cost of Power and Global Adjustment true-ups reported in Q4 of the 2010 continuity schedule.

SPECIAL PURPOSE CHARGE

The Board authorized Account 1521, Special Purpose Charge Assessment Variance Account in accordance with Section 8 of Ontario Regulation 66/10 (Assessments for Ministry of Energy and Infrastructure Conservation and Renewable Energy Program Costs) (the “SPC Regulation”). Accordingly, any difference between (a) the amount remitted to the Minister of Finance for the distributor’s SPC assessment; and (b) the amounts recovered from customers on account of the assessment must be recorded in “Sub-account 2010 SPC Assessment Variance” of Account 1521.

In accordance with Section 8 of the SPC Regulation, distributors are required to apply no later than April 15, 2012 for an order authorizing the disposition of any residual balance in sub-account 2010 SPC Assessment Variance. CNPI is requesting disposition of the balance in “Sub-account 2010 SPC Assessment Variance” and associated carrying charges in this Application.

In May 2010, CNPI remitted \$76,808 to the Ministry respectively in respect of its operations in Port Colborne. Over the subsequent twelve months CNPI – Port Colborne

recovered these remittances through the Special Purpose Charge. In accordance with Board direction, CNPI – Port Colborne has included the variant with interest improvement in this application. The details are found in the respective Rate Generator Models filed as part of this Application and provided in Schedule A.

REVENUE TO COST RATIO ADJUSTMENT

In its Decision in the matter of EB-2008-0224, the Board established the starting points and targets for specific class revenue to cost ratios for electricity distribution rates.

These were:

USL class from the new starting point of 59.80% to 69.93%

Sentinel Lights class from the new starting point of 53.41% to 61.69%

Street Lights class from the new starting point of 31.99% to 50.99%

CNPI – Port Colborne would maintain:

Residential class at the new starting point of 94.70%

GS<50 class at the new starting point of 91.16%

CNPI was directed to apply the net of the revenue responsibility increase related to the USL, Sentinel Lights and revenue responsibility decrease related to the Street Lights classes to reduce the revenue responsibility related to the GS>50 class by moving the revenue to cost ratio from the current starting point of 128.61% to a lower point. This was justified by the fact that the GS>50 class has the highest starting point ratio.

CNPI used those revenue to cost ratios as the starting point for revenue to cost adjustment in its 2010 IRM3 Application. The resultant revenue to cost ratios for the 2010 (EB-2009-0216 and EB-2009-0217) rate year were:

Class	Starting Point	Guideline	2010 Allocation
Residential	94.70%	85% -115%	94.70%
GS < 50	91.16%	80% – 120%	91.16%
GS > 50	128.61%	80% – 180%	127.01%

USL	69.93%	80% – 120%	74.97%
Sentinel Lights	61.99%	70% – 120%	65.85%
Street Lights	50.99%	70% – 120%	60.50%

For the 2011 rate year, CNPI – Port Colborne was directed to move the revenue to cost ratios for the USL, Sentinel Light and Street Light classes to the closest boundary of the Board’s policy. As stated above, CNPI – Port Colborne was directed to apply the net of the revenue responsibility increase to move the revenue to cost ratio for the GS>50 class to a lower point.

CNPI – Port Colborne has complied with the Board’s Decision and has implemented a second adjustment to the nearest boundary of the Board’s Policy Range and applying the benefit to the GS > 50 class. The proposed 2011 revenue to cost ratios are shown below:

Class	2010 Allocation	Guideline	2011 Allocation
Residential	94.70%	85% -115%	94.70%
GS < 50	91.16%	80% – 120%	91.16%
GS > 50	127.01%	80% – 180%	125.0%
USL	74.97%	80% – 120%	80.0%
Sentinel Lights	65.85%	70% – 120%	70.0%
Street Lights	60.5%	70% – 120%	70.0%

The proposed revenue to cost ratios has been inputted in the 2011 IRM3 Revenue to Cost Adjustment Workform for Electricity Distributors. The resultant rate adjustments have been inputted into the 2011 IRM3 Rate Generator for Electricity Distributors.

Effective with the Board approved class revenue to cost ratios in CNPI- Port Colborne’s 2011 IRM3 application, EB-2010-0069, CNPI – Port Colborne is compliant with the Board’s direction provided in its last Cost of Service application, EB-2008-0224. There are no further adjustments to revenue to cost ratios in this Application.

ELECTRICITY DISTRIBUTION RETAIL TRANSMISSION SERVICE RATES (“RTSR”)

CNPI – Port Colborne has determined adjustments to the current Retail Transmission Service Rates approved in EB-2010-0069 using the 2012 RTSR Adjustment Workform for Electricity Distributors. The 2012 RTSR Adjustment Workform is included with this Application with print copies provided in Schedule C. The adjusted RTSR have been inputted to the 2012 Rate Generator Model.

LOW VOLTAGE SERVICE CHARGES

CNPI – Port Colborne’s current Low Voltage Service Rate was approved in EB-2010-0069. CNPI – Port Colborne will continue with the current Low Voltage Service Rate and the appropriate values have been inputted to the 2012 IRM3 Rate Generator.

LOST REVENUE ADJUSTMENT MECHANISM AND/OR SHARED SAVINGS MECHANISM COST CLAIMS

CNPI – Port Colborne is not applying for recovery through a Lost Revenue Adjustment Mechanism and/or Shared Savings Mechanism Cost Claim.

SMART METER FUNDING ADDER

In CNPI – Port Colborne’s 2011 IRM3 application, the Board approved a Smart Meter Funding Adder for CNPI – Port Colborne service territories of \$2.45 per metered customer per month from May 1, 2011 to April 30, 2012.

CNPI – Port Colborne intends to file for a final prudence review of its smart meter initiative at the earliest opportunity following the availability of 2011 audited costs in the first quarter of 2012.

DISTRIBUTION SYSTEM PLAN – FILING UNDER DEEMED CONDITIONS OF LICENCE

CNPI – Port Colborne is not requesting either the Renewable Generation Connection Funding Adder or the Smart Grid Funding Adder in its 2012 IRM3 Application.

TRANSITION TO INTERNATIONAL FINANCIAL REPORTING STANDARD (“IFRS”)

In CNPI – Port Colborne’s last Cost of Service Application, EB-2008-0224, rates were rebased under CGAAP. During this subsequent IRM period CNPI has not transitioned to IFRS.

MICROFIT GENERATOR SERVICE CHARGE

CNPI – Port Colborne is applying to continue the current monthly service charge of \$5.25 as approved by the Board, EB-2010-0069.

SPECIFIC SERVICE CHARGE, ALLOWANCES AND LOSS FACTORS

CNPI – Port Colborne is applying to continue the current Specific Service Charges, Allowances and Loss Factors as approved by the Board; EB-2010-0069.

CURRENT TARIFF SHEETS

Print copies of the approved Tariff Sheets for CNPI – Port Colborne, EB-2010-0069, are provided in Schedule D.

TARIFF SHEETS GENERATED BY THE 2012 IRM3 RATE GENERATOR

The tariff sheet generated by the CNPI – Port Colborne 2011 IRM3 Rate Generator is provided in the Schedule E.

BILL IMPACTS

Bill impacts for Residential customers using 800 kWh per month and General Service less than 50 kW customers using 2000 kWh per month are as follows:

Port Colborne

Selected Delivery Charge and Total Bill Impacts									
		Monthly Deliver Charge				Total Bill			
		Current	Per Application	Change		Current	Per Application	Change	
				\$	%			\$	%
Residential	800 kWh	\$ 45.32	\$ 39.41	\$ (5.91)	-13.04%	\$ 117.54	\$ 111.54	\$ (6.00)	-5.10%
GS < 50 kW	2000 kWh	\$ 83.38	\$ 73.01	\$ (10.37)	-12.44%	\$ 273.12	\$ 262.58	\$ (10.54)	-3.86%

The bill impacts generated by the CNPI – Port Colborne 2012 IRM3 Rate Generator Models are provided in the Schedule F.

Please complete the following continuity schedule for your Group 1 Deferral / Variance Accounts, Account 1521 and Account 1562. Enter information into green cells only. Lines 51-61 contain footnotes and further instructions.

If you have received approval to dispose of balances from prior years, the starting point for entries in the 2012 DVA schedule below will be the balance sheet date as per your G/L for which you received approval. For example, if in the 2011 EDR process (CoS or IRM) you received approval for the December 31, 2009 balances, the starting point for your entries below should be the adjustment column AV for principal and column BA for interest. This will allow for the correct starting point for the 2010 opening balance columns (for both principal and interest) without requiring entries dating back to the beginning of the continuity schedule ie: Jan 1, 2005.

		2005

Group 1 Total + 1521 + 1562		-\$ 1,269,444	\$ 376,060	-\$ 1,404,266	\$ -	-\$ 241,238	-\$ 155,372	-\$ 368,184	-\$ 438,739	\$ -	-\$ 84,817	
The following is not included in the total claim but are included on a memo basis:												
Board-Approved CDM Variance Account	1567											
PILs and Tax Variance for 2006 and Subsequent Years (excludes sub-account and contra account below)	1592											
PILs and Tax Variance for 2006 and Subsequent Years - Sub-Account HST/OVAT Input Tax Credits (ITCs)	1592											
PILs and Tax Variance for 2006 and Subsequent Years - Sub-Account HST/OVAT Contra Account	1592					\$ -					\$ -	
Disposition and Recovery of Regulatory Balances ⁷	1595					\$ -					\$ -	

For all Board-Approved dispositions, please ensure that the disposition amount has the same sign (e.g: debit balances are to have a positive figure and credit balance are to have a negative figure) as per the related Board decision.

¹ Applicants may wish to propose kWh as the allocator for account 1521 pending a final decision of the Board

² Provide supporting statement indicating whether due to denial of costs in 2006 EDR by the Board, 10% transition costs write-off, etc.

³ Adjustments Instructed by the Board include deferral/variance account balances moved to Account 1590 as a result of the 2006 EDR and account 1595 during the 2008 EDR and subsequent years as ordered by the Board.

⁴ Please provide explanations for the nature of the adjustments. If the adjustment relates to previously Board Approved disposed balances, please provide amounts for adjustments and include supporting documentations.

⁵ Although the Global Adjustment Account is not reported separately under 2.1.7, please provide a breakdown in rows 28 and 29.

⁶ For RSVA accounts only, report the net variance to the account during the year. For all other accounts, record the transactions during the year.

⁷ If the LDC's 2011 rate year started January 1, the projected interest is recorded from January 1, 2011 to December 31, 2011 on the December 31, 2010 balance adjusted for the disposed balances approved by the Board in the 2011 rate decision. If the LDC's 2011 rate year started May 1, the projected interest is recorded from January 1, 2011 to April 30, 11 on the December 31, 2010 balance. The projected interest is recorded from May 1, 2011 to April 30, 2012 on the December 31, 2010 balance adjusted for the disposed balances approved by the Board in the 2011 rate decision.

⁸ Include Account 1595 as part of Group 1 accounts (line 31) for review and disposition if the recovery (or refund) period has been completed, and the audited financial statements support the underlying residual balance in account 1595. If the recovery (or refund) period has not been completed, include the balances in Account 1595 on a memo basis only (line 49).

Canadian Niagara Power Inc. - Port Colborne Hydro Inc. - EB-2011-0157

lease complete the following continuity schedule for your Group 1 Deferral / Variance Accounts, Account 1521, notes and further instructions.

you have received approval to dispose of balances from prior years, the starting point for entries in the 2012 received approval. For example, if in the 2011 EDR process (CoS or IRM) you received approval for the Decant adjustment column AV for principal and column BA for interest. This will allow for the correct starting point for requiring entries dating back to the beginning of the continuity schedule ie: Jan 1, 2005.

For all Board-Approved dispositions, please ensure that the disposition amount has the same sign (positive or negative) as per the related Board decision.

Applicants may wish to propose kWh as the allocator for account 1521 pending a final decision of the Board. Provide supporting statement indicating whether due to denial of costs in 2006 EDR by the Board, 10% transition costs Adjustments Instructed by the Board include deferral/variance account balances moved to Account 1590 as a result of it. Please provide explanations for the nature of the adjustments. If the adjustment relates to previously Board Approved Dispositions, the Global Adjustment Account is not reported separately under 2.1.7, please provide a breakdown in rows 28. For RSVA accounts only, report the net variance to the account during the year. For all other accounts, record the transfer of the LDC's 2011 rate year started January 1, the projected interest is recorded from January 1, 2011 to December 31, Board in the 2011 rate decision. If the LDC's 2011 rate year started May 1, the projected interest is recorded from January 1, 2011 to April 30, 2012 on the December 31, 2010 balance adjusted for the disposed balances as per. Include Account 1595 as part of Group 1 accounts (line 31) for review and disposition if the recovery (or refund) period is supported by the underlying residual balance in account 1595. If the recovery (or refund) period has not been completed, include

3RD

Canadian Niagara Power Inc. - Port Colborne Hydro Inc. - EB-2011-0157

lease complete the following continuity schedule for your Group 1 Deferral / Variance Accounts, Account 1521, and further instructions.

you have received approval to dispose of balances from prior years, the starting point for entries in the 2012 schedule should be the 2011 rate year. For example, if in the 2011 EDR process (CoS or IRM) you received approval for the Disposition column AV for principal and column BA for interest. This will allow for the correct starting point for entries requiring entries dating back to the beginning of the continuity schedule ie: Jan 1, 2005.

RETAIL SERVICE CHARGES (if applicable)

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for the Ministry of Energy Conservation and Renewable Energy Program, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

Retail Service Charges refer to services provided by a distributor to retailers or customers related to the supply of competitive electricity

One-time charge, per retailer, to establish the service agreement between the distributor and the retailer	\$	100.00
Monthly Fixed Charge, per retailer	\$	20.00
Monthly Variable Charge, per customer, per retailer	\$/cust.	0.50
Distributor-consolidated billing charge, per customer, per retailer	\$/cust.	0.30
Retailer-consolidated billing credit, per customer, per retailer	\$/cust.	(0.30)
Service Transaction Requests (STR)		
Request fee, per request, applied to the requesting party	\$	0.25
Processing fee, per request, applied to the requesting party	\$	0.50
Request for customer information as outlined in Section 10.6.3 and Chapter 11 of the Retail Settlement Code directly to retailers and customers, if not delivered electronically through the Electronic Business Transaction (EBT) system, applied to the requesting party		
Up to twice a year	\$	no charge
More than twice a year, per request (plus incremental delivery costs)	\$	2.00

microFIT GENERATOR SERVICE CLASSIFICATION

This classification applies to an electricity generation facility contracted under the Ontario Power Authority's microFIT program and connected to the distributor's distribution system. Further servicing details are available in the distributor's Condition of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for the Ministry of Energy Conservation and Renewable Energy Programs, the Global Adjustment, the Ontario Clean Energy

RETAIL SERVICE CHARGES (if applicable)

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for the Ministry of Energy Conservation and Renewable Energy Program, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

Retail Service Charges refer to services provided by a distributor to retailers or customers related to the supply of competitive electricity

One-time charge, per retailer, to establish the service agreement between the distributor and the retailer	\$	100.00
Monthly Fixed Charge, per retailer	\$	20.00
Monthly Variable Charge, per customer, per retailer	\$/cust.	0.50
Distributor-consolidated billing charge, per customer, per retailer	\$/cust.	0.30
Retailer-consolidated billing credit, per customer, per retailer	\$/cust.	(0.30)
Service Transaction Requests (STR)		
Request fee, per request, applied to the requesting party	\$	0.25
Processing fee, per request, applied to the requesting party	\$	0.50
Request for customer information as outlined in Section 10.6.3 and Chapter 11 of the Retail Settlement Code directly to retailers and customers, if not delivered electronically through the Electronic Business Transaction (EBT) system, applied to the requesting party		
Up to twice a year	\$	no charge
More than twice a year, per request (plus incremental delivery costs)	\$	2.00

LOSS FACTORS

If the distributor is not capable of prorating changed loss factors jointly with distribution rates, the revised loss factor will be implemented upon the first subsequent billing for each billing cycle.

Total Loss Factor – Secondary Metered Customer < 5,000 kW	1.0382
Total Loss Factor – Primary Metered Customer < 5,000 kW	1.0278

In the green shaded cells, enter billing detail for wholesale transmission for the same reporting period as the billing determinants on Sheet "4. RRR Data". For Hydro One Sub-transmission Rates, if you are charged a *combined* Line and Transformer connection rate, please ensure that both the line connection and transformer connection columns are completed.

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2010-0069

RESIDENTIAL SERVICE CLASSIFICATION

The Residential Class (Regular) refers to a service taking electricity normally at 750 volts or less where the electricity is used for domestic and household purposes in a single family unit. A single family unit being a permanent structure located on a single parcel of land and approved by a civic authority as a dwelling and occupied for that purpose by a single customer. Residential rates are also applied to apartment buildings with 6 units or less that are bulk metered. Apartment buildings with more than 6 units that are bulk metered are deemed to be General Service. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges or assessments that are required by law to be charged by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for Ministry of Energy Conservation and Renewable Energy Program, the Provincial Benefit and any applicable taxes.

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2010-0069

GENERAL SERVICE LESS THAN 50 kW SERVICE CLASSIFICATION

This classification refers to the supply of electrical energy to single commercial or industrial customer and whose average peak demand is (or is forecasted to be) less than 50 kW. Single commercial or industrial customers are interpreted as a structure or structures on a single parcel of land occupied by one customer. An apartment building with more than 6 units that is bulk metered and has an average peak demand less than 50 kW is deemed to be General Service less than 50 kW. The common area of a separately metered apartment building having a demand less than 50 kW is also deemed to be General Service less than 50 kW. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges or assessments that are required by law to be charged by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for Ministry of Energy Conservation and Renewable Energy Program, the Provincial Benefit and any applicable taxes.

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification refers to the supply of electrical service to a customer that is deemed to have a constant load over a billing period, normally with minimum electrical consumption and the consumption is unmetered. Energy consumption is based on connected wattage and calculated hours of use. Examples of unmetered scattered load are cable television amplifiers, billboards, area lighting. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges or assessments that are required by law to be charged by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for Ministry of Energy Conservation and Renewable Energy Program, the Provincial Benefit and any applicable taxes.

RESIDENTIAL SERVICE CLASSIFICATION

The Residential Class (Regular) refers to a service taking electricity normally at 750 volts or less where the electricity is used for domestic and household purposes in a single family unit. A single family unit being a permanent structure located on a single parcel of land and approved by a civic authority as a dwelling and occupied for that purpose by a single customer. Residential rates are also applied to apartment buildings with 6 units or less that are bulk metered. Apartment buildings with more than 6 units that are bulk metered are deemed to be General Service. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges or assessments that are required by law to be charged by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for Ministry of Energy Conservation and Renewable Energy Program, the Provincial Benefit and any applicable taxes.

GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION

This classification refers to the supply of electrical energy to single commercial or industrial customer and whose average peak demand is (or is forecasted to be) less than 50 kW. Single commercial or industrial customers are interpreted as a structure or structures on a single parcel of land occupied by one customer. An apartment building with more than 6 units that is bulk metered and has an average peak demand less than 50 kW is deemed to be General Service less than 50 kW. The common area of a separately metered apartment building having a demand less than 50 kW is also deemed to be General Service less than 50 kW. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges or assessments that are required by law to be charged by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for Ministry of Energy Conservation and Renewable Energy Program, the Provincial Benefit and any applicable taxes.

STREET LIGHTING SERVICE CLASSIFICATION

This classification refers to the supply of electrical service for roadway lighting. Energy consumption is based on connected wattage and calculated hours of use. Customers are usually a Municipality, Region or the Ministry of Transportation. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges or assessments that are required by law to be charged by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for Ministry of Energy Conservation and Renewable Energy Program, the Provincial Benefit and any applicable taxes.

MONTHLY RATES AND CHARGES - Delivery Component

Service Charge (per connection)	\$	3.06

microFIT GENERATOR SERVICE CLASSIFICATION

This classification applies to an electricity generation facility contracted under the Ontario Power Authority's microFIT program and connected to the distributor's distribution system. Further servicing details are available in the distributor's Condition of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for the Ministry of Energy Conservation and Renewable Energy Programs, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

RETAIL SERVICE CHARGES (if applicable)

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, charges for the Ministry of Energy Conservation and Renewable Energy Program, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

Retail Service Charges refer to services provided by a distributor to retailers or customers related to the supply of competitive electricity

One-time charge, per retailer, to establish the service agreement between the distributor and the retailer	\$	100.00
Monthly Fixed Charge, per retailer	\$	20.00
Monthly Variable Charge, per customer, per retailer	\$/cust.	0.50
Distributor-consolidated billing charge, per customer, per retailer	\$/cust.	0.30
Retailer-consolidated billing credit, per customer, per retailer	\$/cust.	(0.30)
Service Transaction Requests (STR)		
Request fee, per request, applied to the requesting party	\$	0.25
Processing fee, per request, applied to the requesting party	\$	0.50
Request for customer information as outlined in Section 10.6.3 and Chapter 11 of the Retail Settlement Code directly to retailers and customers, if not delivered electronically through the Electronic Business Transaction (EBT) system, applied to the requesting party		
Up to twice a year	\$	no charge
More than twice a year, per request (plus incremental delivery costs)	\$	2.00

LOSS FACTORS

If the distributor is not capable of prorating changed loss factors jointly with distribution rates, the revised loss factor will be implemented upon the first subsequent billing for each billing cycle.

Total Loss Factor – Secondary Metered Customer < 5,000 kW	1.0382
Total Loss Factor – Primary Metered Customer < 5,000 kW	1.0278
